
J. Now that we have talked about the three, Father, Son & Holy Spirit, it is important to know that as Christians we believe in the Triune God, or the Trinity, one God who is three persons.

Imagine three people sharing one giant “time out” t-shirt. Or an egg, and the three parts of the egg, the shell, the yolk and the white. Or simple H₂O, as ice, liquid, and steam. Each of these elements are different in form but still the same element.

K. Discussion

1. Words used to describe God in scripture are of course Father, Son, and Holy Spirit. But when we talk about Creator, Redeemer and Sustainer, how do these words help our understanding of God? (Hint – line them up next to each other)
2. Dive into the scripture to you right, what do these Scriptures tell us about who God is and who God wants us to be?
